

## Declaration for a thesis with publication

PhD and MPhil students may include a primary research publication in their thesis in lieu of a chapter if:

- The student contributed greater than 50% of the content in the publication and is the “primary author”, ie. the student was responsible primarily for the planning, execution and preparation of the work for publication
- The student has approval to include the publication in their thesis from their Advisory Committee
- It is a primary publication that reports on original research conducted by the student during their enrolment
- The initial draft of the work was written by the student and any subsequent editing in response to co-authors and editors reviews was performed by the student
- The publication is not subject to any obligations or contractual agreements with a third party that would constrain its inclusion in the thesis

Students must submit this form, along with *Co-author authorisation forms* completed by each co-author, when the thesis is submitted to the Thesis Examination System: <https://tes.app.unimelb.edu.au/>. If you are including multiple publications in your thesis you will need to complete a separate form for each publication. Further information on this policy is available at: [gradresearch.unimelb.edu.au/preparing-my-thesis/thesis-with-publication](http://gradresearch.unimelb.edu.au/preparing-my-thesis/thesis-with-publication)
